# Faiz Khan

+923188199421 | faizedu3@gmail.com | linkedin.com/in/faizk5 | github.com/ifaizk5

## Summary

Software Engineer with hands-on experience developing scalable web applications, secure REST APIs, and backend systems using JavaScript, TypeScript, Java, SQL, and modern web technologies. Strong foundation in object-oriented programming, data structures, algorithms, clean code, debugging, and software engineering principles. Passionate about building high-quality software, collaborating within agile teams, and leveraging AI-assisted development tools to improve engineering productivity.

## Skills

**Languages:** Java, JavaScript, TypeScript, Python, SQL
**Frontend:** HTML5, CSS3, JavaScript, React.js, Bootstrap, Tailwind CSS, Vite
**Backend:** Node.js, Express.js, NestJS, REST APIs, JWT Authentication, Role-Based Access Control (RBAC), Swagger/OpenAPI
**Databases:** PostgreSQL, MongoDB, Drizzle ORM
**Tools:** Git, GitHub, GitHub Copilot, ChatGPT, Postman, VS Code
**Core Concepts:** Object-Oriented Programming (OOP), Data Structures & Algorithms, Software Engineering Principles, Clean Code, Debugging, RESTful API Design, Database Design, Agile Development

## Projects

**Fair Vision: Dataset Bias Detection & Mitigation Dashboard** Oct 2025 – May 2026
*Final Year Project* *React, MongoDB, Pandas, Recharts*

- Developed a full-stack dashboard for dataset bias detection using React, MongoDB, and Pandas.
- Built REST APIs and interactive visualizations to analyze fairness metrics and improve dataset transparency.
- Applied modular software design principles to build maintainable and reusable components.

**SafeZone: Smart Incident Reporting Platform** Jun 2026 – Jul 2026
*Backend System* *NestJS, PostgreSQL, Drizzle ORM, Swagger*

- Designed and developed secure REST APIs using NestJS and PostgreSQL following clean code and object-oriented programming principles.
- Implemented authentication, RBAC, incident reporting, and user management modules.
- Debugged backend issues, optimized SQL queries, documented APIs with Swagger, and collaborated using Git.

## Experience

**Software Trainee Engineer - Backend** Jun 2026 – Jul 2026
*ZETSOL Technologies* *Hyderabad, Pakistan*

Designed, developed, tested, and maintained secure backend modules and REST APIs using NestJS, PostgreSQL, and Drizzle ORM.

Implemented authentication, authorization, and incident management following software engineering best practices and clean code principles.

Debugged backend issues, tested APIs with Postman, optimized SQL queries, and collaborated using Git in Agile development.

**MERN Stack Intern** Apr 2026 – Jun 2026
*10Pearls (Remote)* *Hyderabad, Pakistan*

Developed full-stack web applications and REST APIs using the MERN stack following clean coding practices.

Collaborated with mentors to debug issues, integrate frontend and backend components, and deliver production-ready features.

Used Git for version control and participated in collaborative software development workflows.

**Web Development Intern** Jun 2025 – Aug 2025
*Grands Digital* *Hyderabad, Pakistan*

Developed responsive web applications using HTML, CSS, JavaScript, Bootstrap, and Google Books REST API.

Implemented search, filtering, responsive layouts, and UI enhancements to improve user experience.

Debugged frontend issues and collaborated with team members to deliver maintainable web solutions.

## Education

**SZABIST University** Hyderabad, Pakistan
*Bachelor of Science in Software Engineering* ***(CGPA: 3.51/4.00)*** *Aug 2022 – May 2026*

## Certifications

• National Skills Competency Test (NSCT) — HEC, P@SHA & PSEB
